- **Programming Languages:** HTML, CSS, JavaScript, TypeScript.
- **Frameworks/Libraries:** React.js, Next.js, React Native, React Query, Styled-jsx.
- **API Interaction:** REST APIs
- **Version Control:** Git, GitHub.
- Responsive Web Design.
- Problem Solving and Debugging.

WORK EXPERIENCE

FrontEnd Engineer | JM Financial Products Limited | Mumbai

October 2022 – Present

- Led the development of websites and mobile applications from the initial stage to completion, ensuring timely delivery and high-quality standards.
- Built and maintained responsive websites using HTML, CSS, JavaScript, React.js and Next.js.
- Developed a mobile application using React Native.
- Implemented performance improvements for enhanced responsiveness and functionality.

PROJECTS

Dwello CRM Website:

- Developed a responsive web platform integrating REST APIs for real-time updates and advanced search/filtering, allowing efficient management of client relationships, activities and leads.

Dwello Website: <https://dwello.in>

- Designed and developed a responsive real estate website showcasing properties with detailed information, collaborated with the backend team to integrate data seamlessly for real-time listing updates.

Dwello Admin Pannel:

- Developed an admin panel with reactive forms and role-based access control, enabling efficient client data management, including uploading, updating, and deleting, tracking activities, and secure report generation for internal use.

Dwello CRM: Mobile Application

- Enhanced a React Native app by integrating seamless navigation, REST API interactions for real-time data updates, and real-time chat functionality to improve client-agent communication.

Bondskart: <https://bondskart.com>

- Developed a responsive and intuitive bond investment platform, for enabling retail investors to securely purchase premium AA+ and AAA-rated bonds. Collaborated with cross-functional teams to integrate real-time data and enhance user experience with modern frontend technologies.

ACHIEVEMENTS

- Improved the Dwello website’s user interface in collaboration with the design team, increasing retention by 10%, and ensured responsive, cross-browser-compatible design delivery on time.
- Streamlined REST API integration in Dwello CRM, boosting data retrieval speed and enabling real-time updates for an enhanced user experience.
- Enhanced code quality by following React and React Native best practices, reducing bugs, and collaborating to launch key Dwello CRM mobile app features like real-time chat and activity tracking.
